

Multiple Monsters

1. Fold

Get a strip of paper and fold it (like a fan) into four, five or six sections.

2. Draw a Monster

Make sure the legs go right up to the folds

3. Cut it out

4. Unfold and decorate

Unfold the monsters. How many legs did you start with and how many do you have now? Why not give them some eyes and spots or stripes.

Why's this maths?

You are multiplying by using paper.
